46 - If you would like to make additional comments about the course or instruction, please provide the feedback. You might elaborate on the particular aspects you liked most as well as those you liked least. Also, how can the course or the way it was taught be improved?46. Please provide your feedback.

Response Rate 5/33 (15.15%)

- Dr. Castille definitely taught us well in this course. I appreciated his compassion and helpfulness with his students. I truly learned some great team skills.
- -I wish this class had better structure. -The group work was horrible for me. -Why give an exam when the workload/project is big enough to count as our grade?
- was a great teacher! talked about a lot of important things, and helps you discover more about yourself.
- Professor Castille is a very nice and caring person. His class is very difficult and his teaching style is very confusing. He gets off topic a lot. I do not find that his teaching or the slides help much when it comes to the test. There is too much going on in his class. We have tests and a project that we work on for the whole semester. There are multiple things due each class period. The work load is too heavy to effectively learn the material for this course. I find myself just doing the work to get it done and not learning anything from it because there is so much work.
- Dr. Castille is one of the best professors I've had. He is awesome at what he does and he cares about his students much more than most professors. He takes his time when handling issues with students and I always felt like he actually made a difference when he helped me. He is a very genuine person overall. 10/10
