- Awesome prof. He is the best at listening to what every single student has to say. He remembers small details about students and calls everyone by name and respects them. My only wish is that there was more accountability held for group members who don't pull their weight (aside from the one team eval). It's very easy for a team member to slide by with good grades when the rest of the team does all the work for them. Overall, loved Castille. He made the class fun and interesting. I never once thought to myself "when am I ever going to use this?" 10/10 would take him and this course again.
- This was my first course with Dr. Castille and I have nothing but positive comments. He is a highly intelligent person who is more than willing to share any knowledge that can further help another person. This course was so helpful in understanding human relations. This semester, this is the course that I have taken the most from. These are skills that I feel are worth learning about in order to further a person in the business world as well as society. Having many different methods of application to the curriculum was very helpful. Doing class role plays always left me feeling surprised at what I thought I knew compared to how I performed. I found the most challenging part of this course to be understanding what questions given to us mean. Quiz and test questions were very challenging in means of understanding what the question is asking and then applying the curriculum to it. Sometimes I found was left very confused when there was an area in the curriculum that I didn't understand from every possible aspect. It made the course a little more challenging but in the end it allowed me to see things from many different ways.
- Dr. Castille did a great job. I've learned valuable skills from this course and I'm glad I had him as an instructor.
- I have really enjoyed my time in Dr. Castille's class. He is a great educator who is willing to help in any way that he can.
