Bachelor of Science in Business Administration (BSBA)
Assessment Plan and Results for Most Recently Completed Accreditation Cycle

Goal	Obj.	When/ Where	Expected Results	Actual Results	Closing Loop	Future Assessmt
Direct Measures						
1) Students will be effective written and oral communicators with the ability to use appropriate technologies to enhance their communication.	1) Students will make effective business presentations by articulating their ideas and thoughts clearly and concisely in grammatically correct English using presentation software. 2) Students will write business reports and other business-related communications that include effective content presented clearly and concisely in grammatically correct English using appropriate technology.	Spring 2019, 2022, 2024: ENGL 310. Spring 2022, 2023: BSAD 490	1)85% of students will meet or exceed expectations on oral comm. and presentation graphics rubrics. 85% of students will meet or exceed expectations on written comm. rubric.	Spring 2019/22/24 Oral - 85%/82% /85% Presentation- 85%/81% /86% Fall 2022/23: BSAD 490 Oral - 100% Presentation - 100% 2) Spring 2019/22/24 85%/80% /84% Fall 2022/23: BSAD 490 95%	1)Although students have continued to meet or exceed expectations for the ENGL 310 assessments, feedback from indirect measures (senior, alumni and employer surveys) has dropped below expected results, for comm, on occasion. There was particular concern that the ENGL 310 courses did not parallel the BSAD 310 courses. To address this concern, the AOL Committee Chair and the former BSAD 310 instructor met at length with the ENGL 310 instructor to ensure that the two courses cover the necessary material to adequately prepare students to be effective communicators. The results have of these efforts have been mixed. Therefore, the AOL comm has recommended that students be	CBA received approval to reinstate BSAD in Fall 25. Thus, this goal will be assessed exclusively in BSAD 310 and 490. CBA also continues to use external stakeholders for BSAD 490 assessments.

					required to take BSAD 310 instead of ENG 310. The CBA is seeking funding to reinstate BSAD 310. 2) The content portion of performance criteria improved after being reviewed individually with each student.	
2) Students will be able to apply critical thinking in making sound business decisions.	1) Students will identify alternative viewpoints in decision making. 2) Students will make valid evaluation of information during decision making. 3) Students will properly utilize quantitative and/or qualitative methods to support their decisions. 4) Students will make sound business decisions.	Spring 2020/22/24	85% of students will meet or exceed expectations on critical thinking decision making rubric.	1)86%/83% /85% 2)85%/82% /84% 3)84%/79% /83% 4)87%/80% /84%	To enhance critical thinking, instructor has implemented a multi-faceted approach designed to build, assess, and refine their skills.	Instructor to continue with multifaceted approach.
3) Students will be able to demonstrate competency in the core business disciplines.	1) Students will demonstrate a basic knowledge of accounting principles. 2) Students will demonstrate a basic knowledge of micro and macro economic principles. 3) Students will demonstrate a working knowledge of management.	Online ETS exam/each semester	Students will meet or exceed national average.	See ETS files for results.	The following activities have been implemented during the last AACSB 5 year cycle: -The AOL committee identifies specific areas of weakness within disciplines where the student average is below the national average. These results are then given to department heads who disseminate the information to	The outcomes for the core competency goal are a "moving target" as there are many variables that can affect student outcomes from semester to semester. Several continuous improvement activities have been implemented over the years, with mixed results. As mentioned in Closing the Loop section,

	theory and concepts. 4) Students will demonstrate a working knowledge of quantitative business analysis techniques. 5) Students will demonstrate a working knowledge of finance principles. 6) Students will demonstrate a basic knowledge of marketing concepts. 7) Students will have a basic knowledge of international issues related to business. 8) Students will have a basic knowledge of the legal and social environment of business. 9) Students will have a basic knowledge of information systems.				faculty. This allows faculty to be sure to adequately cover the topics where student outcomes are subpar. -The AOL committee recommended that a set of standard questions be added to the final exams for all sections in the core courses for each major, to ensure continuity of instruction. Some programs were already doing this and other programs will be implementing standard questions. -Students are made aware of the importance of the ETS exam for the NSU AOL program. Students are also encouraged to go to the ETS website to complete sample questions prior to taking the exam. The ETS exam is also now scheduled earlier in the semester. This change was the result of feedback from students that more effort would be put forth for the exam if it was not given at the end of the semester when students are busy with end of semester projects and presentations.	additional continuous improvement activities were implemented during the 2019-2024 phase. The AOL committee continues to monitor, revise and implement new activities as part of the continuous improvement process. Outcomes for NSU online students were highly inconsistent due to the small sample size each semester. As enrollment increased in the NSU online program, the outcomes have shown less variation. Finally, beginning in Spring 2025, students will be required to attain a minimum percentile on the ETS exam. The purpose is to ensure that students take the exam seriously.
--	--	--	--	--	---	---

4) Students will demonstrate awareness of ethical issues in business.	1) Students will demonstrate understanding of key concepts in business ethics. 2) Students will recognize ethical dilemmas in business situations. 3) Students will identify the impact of potential solutions on stakeholders.	Spring 2012,23 BSAD 101, 221 Fall 2020,22 MNGT 301	85% of students will meet or exceed expectations on ethical awareness rubric. 85% of students will meet or exceed expectations on ethical awareness rubric. 85% of students will meet or exceed expectations on ethical awareness rubric.	Students are meeting or exceeding expectations for all objectives in both face-to-face and online courses.	No changes at this time.	No changes at this time
5) Students will be proficient in utilizing standard office software to analyze business information.	1) Students will be proficient in designing spreadsheet. 2) Students will be able to effectively prepare basic charts to graphically display data. 3) Students will be proficient in designing basic queries using database management system software.	Spring 2020/22/24 CIS 231 FINC 302	85% of students will meet or exceed expectations on the technology rubric.	Students are meeting or exceeding expectations for all objectives in both face-to-face and online courses.	Although students continue to meet or exceed expectations regarding the technology goal, the feedback from indirect measures indicates the need for more technology instruction/use in the classroom. As a result, the Undergraduate Program Instruction Committee has made a concerted effort make courses more data driven. Faculty were surveyed to see where more technology/data driven instruction could be incorporated in the classroom. In addition, the COB has purchased additional software that provides up to date, data driven,	The AOL committee continues to assess both the direct outcomes and indirect outcomes (feedback from surveys) regarding the Technology Goal. Instructors continue with "best practices" approach.

					instruction currently being used in industry. Overall, faculty are making a concerted effort to incorporate more technological based instruction into their courses, where applicable (see technology table). CIS 231 Instructor continues to put more emphasis on assessing where students are and takes actions to fill in those gaps and adapts methods to ensure knowledge retention and in-depth understanding.	
Indirect Measures						

Goal		When/ Where	Expected Results	Actual Results	Closing Loop	Future Assessment
BSBA Goals 1-4 (See above)		Senior Surveys/ Stakeholders: Every Semester Alum/employer Surveys: Once per 5yr cycle	90% of surveyed will select “moderately helpful” score or higher.	See survey results charts	See direct measures section relating to Goals 1, 3, 5.	See direct measures section relating to Goals 1, 3, 5. In addition, faculty were surveyed in December 2024 to assess where multinational concepts/issues are covered and if there is a need to add a multinational goal for AOL purposes. (Alumni and employer surveys indicated a shortfall in multinational issues.) Results are pending. CBA will also begin surveying firms in the CBA internship program beginning Fall, 2025.

Masters of Business Administration (MBA)
Assessment Plan and Results for Most Recently Completed Accreditation Cycle

Goal	Objective	When/ Where	Expected Results	Actual Results	Closing Loop	Future Assessm ents
Direct Measures						
1) Students will be able to communicate audience-appropriate, complex business issues both orally and in writing.	1) Students will make effective business presentations by articulating their ideas and thoughts clearly and concisely at a level appropriate for the intended audience. 2) Students will write business reports and other business-related communications that include effective content presented clearly and concisely at a level appropriate for the intended audience.	Fall 2020 /22 MKTG 501	85% of students will meet or exceed expectations on oral communications and presentation graphics rubrics. 85% of students will meet or exceed expectations on written communication s rubric.	Oral Comm: Nearly 100% of students met or exceeded expectations. Note that responsiveness is not a performance criteria for online classes since presentations are pre-recorded. Written Communication: Nearly 100% of students met expectations in all areas except content (50%/55%). Students began the exam understanding the need for examples to explain their points; however, not all students included examples, which ranked below expectations.	Instructor began providing additional clarification regarding content expectations.	Instructor continues to assess pedagogical changes previously implemented.
2) Students will demonstrate the ability to critically analyze business situations and recommend an ethical course of action.	1) Students will be able to select and appropriately use quantitative and/or qualitative tools to evaluate business problems. 2) Students will analyze complex business situations and make decisions about courses of action appropriate for the organizations	FINC 515 Fall 2020 /22	85% of students will meet or exceed expectations on critical thinking decision making rubric.	70%/75% of students met or exceeded expectations for Objectives 1 and 2. Although students are improving, results are still below target.	Instructor continues to emphasize linkage of the analysis to the appropriate business story and solutions.	Instructor continues to assess pedagogical changes previously implemented.

	involved in those situations 3) Students will demonstrate sensitivity to ethical issues when making business related decisions.	BSAD 507 Fall 2020 /22		100% of students exceeded expectations for Objective 3.		
3) Students will have a working knowledge of all functional areas in business and apply them in an analytical and integrative manner.	1) Students will demonstrate knowledge of all functional areas of business. 2) Students will integrate different functional areas of business in analyzing business situations. knowledge of micro and macro economic principles.	BSAD 525 Fall 2019 /21/23	At least 85% of students met or exceeded expectations in both the traditional and online formats.	All students met or exceeded expectations.	No changes at this time.	No changes at this time.
4) Students will recognize diversity among stakeholders and will apply this knowledge in the analysis of business programs.	1) Students will be able to identify real or perceived diversity among stakeholders. 2) Students consider the variety of viewpoints from diverse stakeholders.	MNGT 502 Spring 2020 /22/24	85% of students will meet or exceed expectations.	100% of students met or exceeded expectations.	No changes at this time.	No changes at this time.
5) Students will be able to demonstrate competency in computer technology through the use of appropriate software.	1) Students will be able to utilize computer software to prepare comprehensive business reports. 2) Students will be able to use current business technology in order to successfully analyze data for the purpose of making effective business decisions.	CIS 501 FINC 520 Fall 2019 /21/23	85% of students will meet or exceed expectations on the technology rubric.	At least 85% of students met or exceeded expectations.	No changes at this time.	No changes at this time.

Indirect Measures						

Goal		When/ Where	Expected Results	Actual Results	Closing Loop	Future Assessment
------	--	----------------	---------------------	----------------	-----------------	-------------------

MBA Goals 1-5 (See above)	Stakeholder Focus Groups: Every Semester		90% of surveyed will select “moderately helpful” score or higher.	See survey results charts	See direct measures section relating to Goals 1&2. In addition, based on market research and focus group feedback the CBA implemented the following changes to the MBA program during this cycle: 1)Addition of an online program: The MBA program has created a fully online option. By providing online classes, the MBA Program is able to have a greater geographic reach and not limit its reach to only Louisiana’s Coastal Region. 2)Addition of a flex program: The flex program was created to provide students with as much flexibility in their schedules as possible. 3)One-year MBA/Creation of mini-terms: The MBA program can now be completed in one year through the use of mini-terms. All MBA classes are now 8 weeks long. This change allows a full-time student to complete the program in a minimum of one year. This change was made to ensure our program is in line with market demands.	See direct measures section relating to Goals 1&2. In addition, faculty were surveyed in December 2024 to assess where multinational concepts/issues are covered and if there is a need to add a multinational goal for AOL purposes. (Alumni and employer surveys indicated a shortfall in multinational issues.) Results are pending.
	Alum/employer Surveys & Student Focus Groups: Once per 5yr cycle

Table 5-1
Executive Masters of Business Administration (EMBA)
Assessment Plan and Results for Most Recently Completed Accreditation Cycle

Goal	Objective	When /Where	Expected Results	Actual Results	Closing Loop	Future Assessment
Direct Measures						
1) Students will be able to communicate audience-appropriate, complex business issues both orally and in writing.	1) Students will make effective business presentations by articulating their ideas and thoughts clearly and concisely at a level appropriate for the intended audience. 2) Students will write business reports and other business-related communications that include effective content presented clearly and concisely at a level appropriate for the intended audience.	MKTG 501 (each EMBA cohort)	85% of students will meet or exceed expectations on oral communications rubric. 85% of students will meet or exceed expectations on written communications rubric.	At least 85% of students met expectations; however, students fell below expectations in the content area in some years.	The instructor will place more emphasis on what specific content is expected in the future.	Instructor continues to assess pedagogical changes previously implemented.
2) Students will demonstrate the ability to critically analyze business situations and recommend an ethical course of action.	1) Students will be able to select and appropriately use quantitative and/or qualitative tools to evaluate business problems. 2) Students will analyze complex business situations and make decisions about courses of action appropriate for the organizations involved in those situations	FINC 515 BSAD 507 (each EMBA cohort)	85% of students will meet or exceed expectations on critical analysis/ethics rubric.	Obj. 1 and 2: 82% of students met or exceeded expectations. Obj. 3: At least 85% of students met or exceeded expectations.	The instructor continues to emphasize the linkage of the analysis to the appropriate business story and solution.	Instructor continues to assess pedagogical changes previously implemented.

	3) Students will demonstrate sensitivity to ethical issues when making business related decisions.					
3) Students will have a working knowledge of all functional areas in business and apply them in an analytical and integrative manner.	1) Students will demonstrate knowledge of all functional areas of business. 2) Students will integrate different functional areas of business in analyzing business situations.	BSAD 525 (each EMBA cohort)	85% of students will meet or exceed expectations on knowledge of functional areas rubric.	Although the overall >85% target was met, students in one cohort fell below the target in marketing. One group's marketing report lacked detail and references to data from the simulation. In addition, the report did not connect marketing concepts to the explanations included. The instructor believes this to be an anomaly.	No changes at this time.	No changes at this time.
4) Students will use appropriate collaboration skills and behaviors to accomplish group goals.	1) Students willingly and consistently work toward group goals. 2) Students exhibit sensitivity to others. 3) Students contribute knowledge, opinion, and skills to the group 4) Students value the knowledge, opinions and skills of others. 5) Students facilitate needed group change.	Students surveyed in last course of program.	85% of students will meet or exceed expectations on collaboration rubric.	A group in one cohort had some challenges working together. The group was disbanded and individual members were spread among the other groups in the class. One student still had some difficulty with the assigned workload throughout the program. We believe this to be an anomaly. The goal of >85% meeting or exceeding expectations was still met.	No changes at this time	No changes at this time.
5) Students will be able to demonstrate competency in computer technology through the use of appropriate software.	1) Students will be able to utilize computer software to prepare comprehensive business reports. 2) Students will be able to use current business technology in order to successfully analyze data for the purpose of making effective business decisions.	CIS 501 FINC 520 (each EMBA cohort)	85% of students will meet or exceed expectations on technology rubric.	CIS 501: 85% met or exceeded. FINC 520: This is the second finance course taken in the program and students have shown gradual improvement in technology skills. 85% met or exceeded expectations.	No changes at this time.	No changes at this time.
